New CER Funding Opportunities - Imminent Deadlines for New ARRA Submission

- **Expansion of Research Capability to Study Comparative Effectiveness in Complex Patients (R24)**
  To build or enhance partnerships, datasets and methodologies that will improve the capacity to study, and the quality of studies, of patients with multiple chronic illnesses (referred to as Complex Patients) and to increase the capacity of high quality epidemiologic and comparative effectiveness research that will inform the health system of the future in its ability to care for people of all backgrounds with multiple chronic illnesses. Learn more.
  - **Eligibility**: Institutions/organizations listed in [Section III, 1.A.]; Project Directors/Principal Investigators
  - **Application due date**: January 20, 2010
  - **Total cost**: $1,000,000 ($500,000 annually)
  - **Total project period**: 2 years

- **Active Aging: Supporting Individuals and Enhancing Community-based Care through Health Information Technology (HIT) (P50)**
  To develop a specialized center (P50 grant mechanism) to carry out community-based participatory research on the use of communication and information focused technologies (IT) on improving the health status of, and health-related services provided to, older adults and to focus on applied research with the objective of developing sustainable and reproducible strategies to translate research into practice effectively and efficiently. This initiative will support a broad, integrated, multidisciplinary, multi-project health services research program – a center of excellence – that will bring together strong teams of experienced and new researchers. Learn more.
  - **Eligibility**: Institutions/organizations listed in [Section III, 1.A.], Project Directors/Principal Investigators
  - **Letters of Intent due date**: February 25, 2010
  - **Application due date**: March 25, 2010
  - **Total cost**: $10 million ($2 million/year)
  - **Total project period**: 5 years

- **Clarification and Update Notice for AHRQ Mentored Clinical Scientists Comparative Effectiveness Development Award (K12)**
