

To Whom It May Concern:

The student you are receiving this from is requesting a recommendation from you to participate in our program at UCSF. The [Pre-Health Undergraduate Program \(PUP\)](#) is a summer clinical research training program for undergraduate students currently enrolled at accredited 4-year institutions who are planning to attend dental, medical, nursing, pharmacy or physical therapy professional schools after graduation, and who have an interest in a career in clinical research. Accepted students will be enrolled in the [Designing Clinical Research](#) course, will be paired with a UCSF professional student who is enrolled in the course, and will work with the UCSF professional student on their research project applying the principles learned in the course. The purpose of the course is to train students to evaluate the medical literature, to design clinical and translational research studies, and to encourage long-term collaborations between UCSF and undergraduate students. Please click on the above links to find out more information.

Please complete this recommendation form no later than Monday, February 23rd as that is the deadline for applications. If for some reason you feel you are unable to complete this recommendation please notify the applicant as soon as possible so that he or she may find another person. Your cooperation is greatly appreciated.

Thanks,

Christian Leiva
PUP Coordinator
