

<b>Resident Research Funding Awardees</b>			
<b>Name</b>	<b>Department</b>	<b>Mentor</b>	<b>Project Title</b>
<b>Fall 09</b>			
Winnicki, Erica, MD	Pediatrics	Anthony Portale, MD	Risk factors for subclinical acute allograft
Thakur, Neeta, MD	Internal Medicine	Mark Eisner, MD MPH	Pilot Study: Determinates of missed appointments among patients with COPD
Berkowitz, Seth, MD	Internal Medicine	Mitchell Feldman, MD, Mphil	Health status and care seeking behavior for depression
Yee, Lynn, MD	OBGYN and Reproductive Sci	Miriam Kuppermann, PhD, MD	Investigating mode of delivery preferences among women with twin pregnancies
Applebaum, Mark, MD	Pediatrics	Emily Von Scheven, MD, MAS	Preparing adolescents with chronic illness for transition in care
Wustrack, Rosanna, MD	Orthopaedics	Shane Burch, MD, FRCS	Use of accelerometry to measure activity following surgery for Lumbar Spinal Stenosis
Wagner, Karla Bermudez, MD	Medical Genetics	Katherine A. Rauen, MD, PhD	Mutation and functional analysis of BRAF, MEK1 and MEK2 in Ovarian Cancer
Lin, Carol A, MD	Orthopaedic Surgery	Alfred C. Kuo, MD, PhD	Incidence of complications in Total Joint Arthroplasty in HIV-positive patients: retrospective analysis of the VA Inpatient SAS Dataset
Warden, Meredith, MD	OBGYN and Reproductive Sci	Jody Steinauer, MD MAS	Calling all high-risk patients: Can a simple telephone call increase contraception continuation after abortion?
Tasian, Gregory, MD	Urology	Hillary Copp, MD, MS	Factors affecting use of imaging in Cryptorchidism: National cross-sectional survey of Pediatrics
Dokubo, E. Kainne, MD	Preventive Medicine	Kimberly Page, PhD	Development of a novel testing strategy to detect acute Hepatitis C virus (HCV) infection among injection drug users
Hollier, John, MD	Pediatrics	Stephen Wilson, MD, PhD	Impact of a major model of care change on quality and cost of care in a tertiary care teaching children's hospital
<b>Spring 2009</b>			
Aaronson, David, MD	Urology	Jim Smith	H magnetic resonance spectroscopy for the non-invasive diagnosis of non-obstructive azoospermia
Barnhart, Nena C., MD	OBGYN and Reproductive Sci	Deborah Cohan, MD, MPH	Preferences regarding Risk-Reducing Strategies for HIV Discordant Couples attempting to conceive
Bebell, Lisa, MD	Medicine	Chris Pilcher, MD	Feasibility of point-of care detection and prevention of Acute HIV in rural Uganda
Chen, Sharon, MD, MPH	Pediatrics	Alison Meadows, MD, PhD	Obesity & perceived physical activity restrictions in adolescents & young adults with congenital heart disease
Houston, Kathryn, MD	OBGYN and Reproductive Sci	Miriam Kuppermann, MD, PhD	Mode of delivery preferences among diverse populations of women
Kelly, Michael, MD	Orthopaedic Surgery	Dennis Black, PhD	Incidence & risk factors for subtrochanteric femur fractures in study of osteoporotic fracture
Parekh, Justin, MD	Surgery	Ryutaro Hirose, MD	Hyperglycemia in Ischemia-Reperfusion Injury & Graft Function in Renal Transplantation
Rosenstein, Melissa	OBGYN and Reproductive Sci	Jody Steinauer, MD MAS	Second Trimester Pregnancy Termination for complication: the perinatologist perspective
Woolley, Joshua, MD, PhD	Psychiatry	Bruce Miller, MD	Neurocircuitry of reward processing in Frontotemporal Dementia
Zielinski, Brandon, MD	Neurology	William Seeley, MD	Network-level structural covariance in the Pediatric Brain
<b>Fall 08</b>			
David Dowdy, MD	Medicine	Beth Kaplan, MD	Cost-Effectiveness of Rapid HIV Testing in the Emergency Department
Jeffrey Gelfand, MD	Neurology	Ari Green, MD	Vitamin D and Disease Severity in African-American with Multiple Sclerosis
Harry S. Hwang, MD	Otolaryngology Surgery	Lawrence Lustig, MD	Efficacy of Topiramate in Patients with Migraine-associated Dizziness
Hooman Kamel, MD	Neurology	Clay Johnston, MD, PhD	Pilot Randomized Trial of Long-Term Cardiac Monitoring for Atrial Fibrillation After Stroke
Phoebe Lin, MD, PhD	Ophthalmology	Nisha Acharya, MD, MS	The Impact of Statins and Smoking on the Development, Course, and Severity of Uveitis

Chris Longenecker, MD	Medicine	Elyse Foster, MD	Echocardiographic signs of Cardiomyopathy in Asymptomatic HIV-Infected Pregnant Women in Uganda
Christian P. Nixon, MD	Lab Medicine	Scott Kogan, MD	Cloning and Expression of Novel P. Falciparum Vaccine Candidate Antigens Inhibitor
Gautam Prasad, MD	Radiation Oncology	Daphne Haas-Kogan, MD	Sensitization of Glioblastoma to Adjuvant Erlotinib Using a Combined P13K/mTOR Inhibitor
Craig Rackley, MD	Medicine	Michael Matthay, MD	Early Identification of Acute Lung Injury
Isaac Yang, MD	Neurological Surgery	Andrew Parsa, MD, PhD	Hearing Preservation After Gamma Knife Radiosurgery for Vestibular Schwannoma
<b>Spring 08</b>			
Hansmann, George	Pediatrics	Jeffery Fineman, MD	Insulin Resistance and Peripheratave Pulmonary Hypertension
Kwan, Rita	Surgery	Julio Garcia-Aguilar, MD, PhD	Population of patients with Squamous Cell Carcinoma of the Anus (SCCA)
Mok, James	Othopedics	Utku Kandemir, MD	Diagnosis of Acute Compartment Syndrome following tibia fracture
Ordonez, Anna	Psychiatry	Coral Mathews, MD	Obsessionality and Anxiety symptoms developed of psychopathology in children ages 12-18 in Costa Rica
Richards, Anne	Psychiatry	Charles Marmar, MD	Psychological distress and treatment needs in Colombians internally
Tsai, Alex	Psychiatry	Sheri Weiser, MD	Antidepressant treatment antiretroviral medications and viral load among persons infected with HIV
Worjolah, Ayaba	OBGYN and Reproductive Sci	Deb Cohan, MD, MPH	QuantiferON-TB Gold with tuberculin skin test for detecting tuberculosis in pregnant women
<b>FALL 2007</b>			
Arredondo, Shelley	Medicine	Niklas Krause, MD	Are psychosocial work and individual factors independently associated with health related quality of life in a cohort of hotel room cleaners
Hsiang, Michelle	Pediatrics	Erica Pan, MD, MPH	Risk factors for Community Associated Methicillin resistant vs. Methicillin susceptible Staphylococcus aureus in Children in the San Francisco Bay Area
Kamel, Hooman	Neurology	Clay Johnston, MD	Delayed Detection of Atrial Fibrillation after Ischemic Stroke and the Risk of Stroke Recurrence
Lee, Susan	Surgery	Kimberly Kirkwood, MD	Law and Ethics of Informed Consent for Innovative Surgical Procedures
Lester, Felicia	OBGYN and Reproductive Sci	Suellen Miller, MD	Case Series to Investigate the Hemodynamic Impact of the Non-Pneumatic Anti-Shock Garment (NASG) in Post-Partum Women
Lu, Daniel	Neuro Surgery	Geoffrey Manley, MD, PhD	Brain Natriuretic Peptide and Cerebral Salt Wasting in Traumatic Brain Injury
Zeidler, Kamakshi Raimon	Plastic and Reconstructive	David Chang, MD	The establishment of an admission criteria for infections of the hand
Teo, Alan	Psychiatry	Mark Leary, MD	Avoiding violence by psychiatric patients: A retrospective study of assault incidences on the inpatient psychiatric units in SFGH
Wooley, Joshua	Psychiatry	Bruce Miller, MD	Frontotemporal Dementia feeding and energy expenditure
Zielinski, Brandon	Neurology	Heather Fullerton, MD, MAS	Ethnic disparities in pediatric stroke risk
